BEFORE  
THE PUBLIC SERVICE COMMISSION OF  
SOUTH CAROLINA  
DOCKET NO. 90-32-E - ORDER NO. 95-610✓  
MARCH 15, 1995

IN RE: Carolina Power & Light Company - ) ORDER GRANTING  
Experimental Tariff Schedule ) WITHDRAWAL OF  
LGS-CUR-TOU-69. ) TARIFF MODIFICATION

This matter comes before the Public Service Commission of South Carolina ("the Commission") on the request of Carolina Power & Light Company ("CP&L") to withdraw its request to lower the curtailable limit in Experimental Rate Schedule LGS-CUR-TOU-83.

On October 7, 1994, CP&L requested Commission approval to lower the curtailable load limit contained in Experimental Rate Schedule LGS-CUR-TOU-83 from 150 MW to 65 MW. By letter dated March 7, 1995, counsel for CP&L informs the Commission that subsequent to filing its request to lower the curtailable load limit CP&L has determined that its total system curtailable load exceeds 150 MW which is the maximum permitted under its South Carolina curtailable rate schedules. CP&L states that because the South Carolina total system curtailable load limit has been reached, there is no longer a need to modify rate schedule LGS-CUR-TOU-83.

Upon consideration of this matter, the Commission is of the opinion, and so finds, that the relief requested by CP&L should be granted.

IT IS THEREFORE ORDERED THAT:

1. CP&L's withdrawal of its request to lower the curtailable limit in Experimental Rate Schedule LGS-CUR-TOU-83 is granted.
2. This Order shall remain in full force and effect until further Order of the Commission.

BY ORDER OF THE COMMISSION:

  
CHAIRMAN

ATTEST:

  
Executive Director
